THE VALUE OF THE RIGHT RISK ADVISOR

A sophisticated advisor should be discussing more than premiums, including questions like:

- Has your insurance program been reviewed in the last 12 months?
- Is your current net worth accurately reflected in your insurance strategy?
- Are your homes, collector vehicles, watercraft, and other hard assets insured to today's replacement values?
- Have trusts, LLCs, and other ownership entities been properly incorporated into your coverage?
- Are valuable collections professionally appraised and adequately protected?
- Does your liability program account for today's increase in uninsured and underinsured motorists?
- Are domestic employees covered appropriately?
- Have your heirs been included in conversations around protecting family wealth?
- Are you protected against cybercrime, AI-enabled fraud, and identity theft?
- Does your insurance provide the travel security, emergency medical, and liability protection your lifestyle requires?
